The theme of this year’s Annual Meeting is “Brilliantly Disguised Opportunities” and the ways we are all called upon to examine the future of Higher Education, Academic Research, and Teaching and Learning. Each of our 3 plenary sessions will focus on one of these areas. What will higher education look like in 2023? How can we help invent a better future and embrace the brilliantly disguised opportunities that lie within each of these areas? Come to Anaheim and join the discussion. To learn more about the plenary sessions and speakers, click on any of the circles below.
